

# Avery Dennison<sup>®</sup> Supreme<sup>™</sup> PPF Warranty Terms and Conditions 1.0

Revision number 1

## Acknowledgment of use of Product

Avery Dennison Graphics Solutions (“Avery Dennison”) supplies the specified Avery Dennison products (“Product”) on the following basis:

- (a) the Product is not required for, and is not of a kind ordinarily acquired for personal, domestic or household use or consumption;
- (b) the Product is being acquired for the purposes of re-supply and/or commercial use or for using them up or transforming them in the course of a process of production or manufacture; and
- (c) the purchaser will inform any subsequent purchaser of the Product of any reasons why the Product will or may not be fit for all the purposes for which goods of that kind are commonly supplied, and/or the purposes for which such subsequent purchaser requires the Product, including but not limited to having regard to any information provided by Avery Dennison concerning the Product and/or its application, including in any Product Data Sheets, Instructional Bulletins and Warranty Bulletins and, including but not limited to the basis upon which Durability (as applicable and defined below) are determined; the purchaser will inform any subsequent purchaser of the Product.

## Avery Dennison Graphics Product Limited Express Warranty

Avery Dennison warrants that the Product will be free from defects in manufacturing and workmanship (as defined below) upon shipment, and when used according to Avery Dennison' written instructions, will under normal conditions provide Durability for the warranty period stated in the Avery Dennison Supreme PPF™ Warranty Bulletin, subject to the terms, conditions and limitations contained herein.

“Durability” for the purpose of this warranty means that the Product situated outdoors, subject to the limitations herein and Avery Dennison Product Data Sheets and Instructional Bulletins, and applied to recommended surfaces, will not deteriorate excessively such as, film discoloration, cracking, crazing, blistering, excessive gloss changes, excessive dimensional change or loss of adhesion, due solely to a defect in the Product in manufacturing or workmanship. Durability is based on Australian and New Zealand outdoor exposure conditions (Zones 1, 2 & 3), unless otherwise stated, and application to recommended substrates. Actual performance life will depend on a variety of factors, including but not limited to substrate preparation, exposure conditions and maintenance of the Product. In case of use in areas of high temperature or humidity, in industrially polluted areas or other areas with air laden particulate matter, and/or in high altitudes, Durability will be reduced.

### Defect Coverage for Product

- **Manufacturing & Workmanship Defects.** A failure of the Product to materially conform to the Avery Dennison written manufacturing specifications for the Product.
- **Cutting Defects.** A failure of clean cutting and weeding characteristics when cut as recommended in the applicable Avery Dennison Product Data Sheet and Instructional Bulletins, due solely to a defect in the Product in manufacturing or workmanship.
- **Durability.** Excessive film discoloration, cracking, crazing, blistering, excessive gloss changes, excessive dimensional change or loss of adhesion, due solely to a defect in the Product in manufacturing or workmanship.

## Express Warranty Limitations and Purchaser's Obligations

### **Obligation to Inspect**

The purchaser must, upon receipt of all Product, promptly inspect the goods for defects or damage and must within fourteen (14) days of delivery notify Avery Dennison in writing and/or its authorized agent or distributor of any claim. The purchaser must notify Avery Dennison in writing of any other alleged defect in the Product within 14 days of the date that such alleged defect of the Product was discovered or reasonably could have been discovered. Upon such notification, the purchaser must allow Avery Dennison to inspect the Product. To the extent permitted by law, no Product will be accepted for return or replacement unless Avery Dennison, in its sole discretion, upon inspection of the Product, considers the Product to be faulty or damaged by reason of an act or omission of Avery Dennison. Any return of Product is to be negotiated directly with Avery Dennison prior to its return. To the extent permitted by law, Product returned and accepted by Avery Dennison is, at the sole discretion of Avery Dennison, accepted for credit or replacement only. Any Product that is intended to be returned by Avery Dennison must be returned in the same condition as despatched or installed or, to the extent permitted by law, it will not be accepted.

### **Obligation to Ensure Suitability**

This warranty only applies to Product, that are used for the defined end uses and in the combinations described in the applicable Avery Dennison Product Data Sheets, Instructional Bulletins and Warranty Bulletin. It is the responsibility of the purchaser to ensure that the Product is suitable for the purposes for which it is purchased and for which it is to be re-supplied. To the maximum extent permitted by law, Avery Dennison will accept no liability whatsoever for any claims made by the purchaser or any subsequent purchaser or End User, arising from the failure of the purchaser to ensure suitability of the Product and/or to inform any subsequent Purchaser or End User of any reasons why the Product will or may not be fit for all the purposes for which goods of that kind are commonly supplied, and/or the purposes for which such subsequent purchaser requires the Product, including but not limited to having regard to any information provided by Avery Dennison concerning the Product and/or its application, including in any Product Data Sheets, Instructional Bulletins and Warranty Bulletins and, including but not limited to the basis upon which Durability are determined. The purchaser agrees to indemnify, defend and hold harmless Avery Dennison for any claims, losses, damages, judgments, expenses and/or expenses, including legal fees, resulting from any use or application for which the Product is unsuitable.

### **Recording of Installation Details and Product Information - Warranty Form**

This warranty is expressly conditioned on the purchaser ensuring that each individual vehicle where the Avery Dennison Supreme PPF is being installed to is recorded using the provided Warranty Form. Information, including company name, installer name, installation date, location, vehicle make, model, colour, VIN, lot/ref numbers of Avery Dennison Product used are required in order to validate the warranty.

The Supreme PPF Warranty Form can be found [here](#).

---

#### **Notification of Claims**

Claim notifications must be made to Avery Dennison in writing within 14 days of the date that such alleged defect of the Product was discovered or reasonably could have been discovered, and must include company name, installer name, installation date, location, vehicle make, model, colour, registration, lot/ref numbers, together with a detailed report of processing conditions, and any other information that is pertinent or requested by Avery Dennison.

Avery Dennison reserves the right to inspect, investigate and verify all reported claims. Failure to comply with the foregoing conditions constitutes a waiver of all rights under this Warranty.

#### **Product Storage**

The Product must be properly stored and applied within the shelf life as stated in the applicable Avery Dennison Product Data Sheet. It is the Converters and/or Installers responsibility to demonstrate the Product is used within the Product shelf life by recording lot/reference numbers and installation date, utilising the Warranty Card.

#### **Unintended Use**

This warranty is expressly conditioned on the Product being processed by Converters and/or Installers in accordance with Avery Dennison recommended written processing instructions, and being applied to properly prepared surfaces and cleaned and maintained in accordance with recommended Avery Dennison procedures. It is the Converters and/or Installers, or other users responsibility to perform incoming raw material quality inspections, to assure proper surface preparation and that approved application procedures are followed, to retain converted samples, and to immediately cease using and notify Avery Dennison and/or its authorized agent or distributor of any Product, discovered to be (or reasonably capable of being discovered to be) defective.

#### **Misuse and Force Majeure**

Avery Dennison has no obligations or liability to any person whether under this warranty or otherwise with respect to Product that has been altered, modified, damaged, misused, abused, subject to accident, neglected or otherwise mishandled or improperly processed or applied. Products are not warranted against premature failure caused by chemical, environmental or mechanical means such as, but not limited to, vandalism, cleaning solutions, paints, solvents, moisture, temperature, mechanical washing equipment, engine fuel spills, engine exhaust, steam, organic solvents or other spilled chemicals. Damage from fire, structural failure, lightening, and other force majeure events are not covered by this warranty.

#### **Weathering Effects**

Some degradation of Product over time is considered normal wear. Slight chalking, edge lifting, "tenting" around rivets, or slight or gradual reduction in gloss, and other natural weathering, environmental or other conditions or damage caused by tornadoes, hurricanes, wind or other acts of God, do not constitute a breach of warranty.

---

**Adhesion to Application Surfaces**

This warranty does not cover the Product if the application surface is not properly prepared; nor does the warranty cover the Product or damage to the substrate because the layers of the substrate separate due to a lower bond between those layers than the bond between the Product and the top layer of the substrate, or surfaces which subsequently crack, peel, outgas, or become damaged beneath the Product.

**Glass Breakage**

This warranty does not cover glass breakage. Glass is prone to break under the stresses caused by temperature changes across the surface, which could be amplified by the application of film.

---

## Exclusive Remedies and Limitations of Liability

- To the maximum extent permitted by law, in no event will Avery Dennison or the Converters and/or Installers be liable for any claim made by the purchaser or any third party for personal injury, or any incidental, special, indirect or consequential loss or damage whatsoever arising from, out of or in connection with the Products, application of the Products and/or use of the Products.
- Reimbursement for Materials. If any warranties are implied by law that cannot be excluded (in addition to those that have been expressly described in these terms and conditions), then to the maximum extent permitted by law (and subject to the provision of timely written notification of the warranty claim and verification of the warranty claim by Avery Dennison), Avery Dennison's sole liability and responsibility, and the exclusive remedy therefore, shall be at Avery Dennison's option: (A) to issue a material credit towards future purchases for the full purchase price of all Avery Dennison defective Product used; or (B) to replace all Avery Dennison defective Product consumed in the manufacture of the protection application.
- Notwithstanding that which has been outlined above but subject to the Australian Competition and Consumer Act 2010 (Cth) and the NZ Consumer Guarantees Act, Avery Dennison and the Converters and/or Installers will not be liable for any defect or damage which may be caused or partly caused by or arise as a result of:
  - a) the purchaser failing to properly maintain or store any Products;
  - b) the purchaser using the Products for any purpose other than that for which they were designed;
  - c) the purchaser improperly applying or misusing the Product;
  - d) the purchaser continuing to use and degrade the Products after any defect became apparent or should have become apparent to a reasonably prudent purchaser;
  - e) the purchaser failing to follow any instructions or guidelines issued by Avery Dennison Graphics;
  - f) fair wear and tear;
  - g) glass breakage;
  - h) any accident or premature failure caused by chemical, environmental or mechanical means; or
  - i) an act of God.

### **No Extension of Warranty**

In the case of a verified warranty claim, replacement Product carries only the remaining term of the original warranty period as stated in the applicable Avery Dennison Warranty Bulletin.

---

**Reimbursement for Processing Failure**

For processing failures due solely to a defect in the Product in manufacturing or workmanship, Avery Dennison will reimburse a portion of reasonable documented costs for associated processing components in a maximum amount not to exceed the value of the Product which failed during processing. It is the manufacturers' responsibility to perform incoming raw material quality inspections, to implement appropriate manufacturing process controls including in-process testing, retain converted samples, and to immediately cease using and notify Avery Dennison of any Product discovered to be (or reasonably capable of being discovered to be) defective.

**Reimbursement for Durability Performance Failure**

Reimbursement for Materials. If any warranties are implied by law that cannot be excluded (in addition to those that have been expressly described in these terms and conditions), then to the maximum extent permitted by law (and subject to the provision of timely written notification of the warranty claim and verification of the warranty claim by Avery Dennison), Avery Dennison's sole liability and responsibility, and the exclusive remedy therefore, shall be at Avery Dennison's option: (A) to issue a material credit towards future purchases for the full purchase price of all Avery Dennison defective Product used to produce the finished graphic; or (B) to replace all Avery Dennison defective Product consumed in the manufacture of the finished graphic.

---

## Removal Remedy Limitations

In no event shall Avery Dennison be responsible for any damage to substrates resulting from Product removal, even when using a Removable Adhesive and/or Long Term Removable Adhesive, for example:

- Existing graphics or film that must remain intact.
- Any automotive paint (OEM and after market).
- Any surface that has a pre-existing unstable or unsound paint or surface finish.
- Any surface that has damage, improperly repaired damage or damage that occurs while the Product is in use (i.e., body damage on Vehicles).

## Indemnity

- The purchaser agrees to defend, indemnify and hold harmless Avery Dennison from and against any and all claims, damages, obligations, losses, liabilities, costs or debts and expenses arising directly or indirectly from its use of the Product or Products, including but not limited to the following:
  - a) its improper use, application or choice of Product/s;
  - b) its continued use and degradation of the Product/s after becoming aware of a defect or after a reasonably prudent purchaser would have become aware of the defect;
  - c) any defect or damage to the Product/s caused by a failure to follow an instruction or guideline issued by Avery Dennison; or
  - d) any other defect or damage to the Product/s that could reasonably be said to have resulted from the actions or omissions of the purchaser.

---

## Definitions

- “Compound Curves” means a surface that includes both, or either, concave or convex curves. It does not include surfaces with hard angles or corrugations that would require extensive stretching of the Product.
- “Corrugations” means corrugated or recessed areas that require stretching of the Product (for example, a false window recess on a commercial van).
- “Flat surfaces” means a two dimensional flat surface without protruding objects.
- “Vehicle” means buses, vans, automobiles, recreational vehicles unless otherwise noted.
- “Long Term Removable Adhesive” means an Avery Dennison adhesive that can be removed with heat and/or chemicals within the warranted durability period and may leave thirty percent (30%) or less adhesive residue.
- “Marine Environment” means an environment where the oceans, seas, bays, estuaries, and other major water bodies, including their surface and interaction, with the atmosphere and with the land seaward of the mean high water mark.
- “OEM” means original equipment manufacturers.
- “Recreational Vehicle” means vehicles used for personal pleasure, such as campers, motor homes and trailers, that are not used in connection with any commercial or business enterprise. Specifically excludes watercraft from this definition.
- “Removable Adhesive” means an Avery Dennison adhesive that can be removed without heat or chemicals within the period stated on the respective Product Data Sheet and may leave thirty percent (30%) or less adhesive residue.
- “Rivets” mean surfaces with protruding rivet heads. Slight “tenting” or film lifting around rivets does not constitute a breach of warranty.
- “Simple curves” means surfaces that include a third dimension which does not require stretching of the film (for example, a cylinder).
- “Watercraft” means watercraft intended for personal pleasure such as runabouts and speedboats having aluminium and/or smooth fibreglass/gel coat bodies, including boats used in fishing tournaments and off-shore racing boats, but not other boats used in connection with commercial or business enterprise. Specifically excludes all other recreational vehicles from this definition.
